

# ACCRUENT MANAGED SERVICES

## **Maximize ROI. Optimize Performance. Drive Long-Term Success.**

Accruent Managed Services is a subscription-based plan tailored to help you sustain software adoption and evolve your solutions in step with your business priorities. With a dedicated team of certified experts led by a Program Manager, we partner with you to ensure your Accruent solutions continue delivering measurable value well beyond initial deployment.

## **WHY ADD MANAGED SERVICES?**

When you engage with Accruent Managed Services, you benefit from:

- A customized success plan aligned with your business goals and Accruent best practices
- A dedicated team of experts to execute on your priorities
- Reduced and stabilized operational costs while increasing ROI
- Enhanced user experience and software adoption over time
- More time to focus on strategic initiatives

Accruent Managed Services deliver a comprehensive suite of support offerings designed to optimize your software environment, streamline operations and ensure your solutions evolve with your business

# WHAT MANAGED SERVICES CAN DO FOR YOU

## **BUSINESS PROCESS REVIEW**

Comprehensive evaluation of key metrics, workflows and user activity providing guidance to better manage your business, contain costs and improve service delivery.

## **CONFIGURATION MANAGEMENT AND OPTIMIZATION**

Troubleshooting, workflow analysis, and reporting assistance to keep your system efficient and aligned with evolving needs.

## **ENHANCED PLANNING**

Stay aligned with the product roadmap and prepare for new features with use case testing and strategic guidance.

## **EXPANSION SUPPORT**

Scale your solution to new modules, locations, use cases, reports, and integrations.

## **ONGOING MONITORING AND REPORTING**

Proactive tracking of performance indicators and advance notice of updates to keep your system secure and optimized.

## **PRODUCT TRAINING**

Instructor-led training tailored to your organization, including demos and guidance on new features for confident adoption.

## **SYSTEM ADMINISTRATION AND CUSTOMIZATION SUPPORT**

Access to experienced application administrators for both standard and custom configurations, including scripts and APIs approved by Accruent.

Accruent Managed Services offer the expert guidance and ongoing partnership needed to keep your solutions performing at their best. From workflow evaluation and system optimization to training and expansion, our team helps you reduce complexity, improve user experience, and drive measurable results ensuring your Accruent investment continues to deliver value as your organization grows.
