EMS + ELLUCIAN: THE SMARTER WAY TO MANAGE CAMPUS SCHEDULING

Connect your campus. Streamline your workflows. Empower your students.

You can't afford to waste time struggling with siloed systems, scheduling conflicts and extra administrative burden – especially when it comes to your student information system (SIS). With this native, bidirectional integration between Accruent EMS and Ellucian Banner, you don't have to.

The integration automates the flow of course, instructor and room data between Accruent EMS and Ellucian Banner, optimizing scheduling and freeing your staff to focus on what really matters – serving students and faculty. This isn't just another technology upgrade; it's the key to running a more connected, accurate and collaborative campus.

Automated, Accurate Data Sync
Courses, instructors, rooms and schedules flow seamlessly between EMS and Ellucian SIS. When a room assignment is finalized, it's reflected in both systems. That means no duplicate entry, no manual fixes and far fewer errors slowing you down.

Real-Time Collaboration
Academic departments, event planners and facilities teams can seamlessly work together so space assignments are optimized for preferences and availability. If plans change, updates appear quickly across systems, keeping everyone on the same page.

Increase Operational Efficiency
By automating scheduling and eliminating data reentry, you give your staff hours back each week. Utilization trends and seat-fill data are at your fingertips so you can make smarter decisions faster.

Student-Centric Experience
Students and faculty get accurate, timely room assignments, reducing conflicts and confusion. With reliable information available anytime, anywhere, you deliver the modern, seamless experience your campus community expects.

DRIVE STUDENT AND FACULTY SUCCESS

Deliver a connected campus experience that empowers your community – helping everyone make the most of your facilities and resources.

- Enable self-service booking and transparent room assignments to reduce missed connections and last-minute confusion.
- Support digital transformation by integrating with your key campus systems and keeping information up to date everywhere.
- Foster a modern, collaborative campus culture where information flows freely and learning spaces serve their highest purpose.
- Maximize satisfaction and retention for students and staff by making campus navigation, access and scheduling easier and more reliable.

SEAMLESS, SECURE AND SCALABLE

This integration is built on a secure cloud platform and strengthens Accruent's Integrated Workplace Management Solution (IWMS) capabilities for connected space and facility management.

With Accruent's unified IWMS ecosystem, experience:

- **Deep Integrations:** Connect effortlessly with all of your critical campus systems to unify workflows and data.
- **Comprehensive Capabilities:** Manage desks, courses, events and compliance with tools and solutions designed to optimize space and boost productivity.
- **Proven Security and Scalability:** Protect operations with enterprise-grade security, global reach, and flexible architecture built to grow with you.
