

# SEAMLESS SPACES: THE FUTURE OF DESK AND ROOM SCHEDULING

Accruent's EMS Software empowers organizations and campuses to make every space work smarter. As the trusted platform for millions, EMS delivers seamless desk and room booking, resource management, and technology integration, helping you maximize space, streamline operations, and create environments where people thrive with greater efficiency.

## Enable Flexible Work and Learning

Support hybrid schedules, evolving team needs, and dynamic environments. EMS makes it easy to reserve, share, and adapt spaces on demand, empowering people and organizations to succeed.

## Optimize Space Utilization

Turn data into action. EMS delivers real-time insights into how spaces are used so you can right-size your footprint, eliminate waste, and make smarter investments.

## Elevate the User Experience

Offer a seamless, intuitive booking experience using EMS' mobile access, interactive floorplans, instant confirmations, and powerful integrations with critical applications across your organization, including Outlook.

## Simplify Operations

EMS can handle the most complex space reservations, combining space bookings, services, amenities, and all the details that go along with that. This translates to reduced administrative burden and streamlined booking.

## FEATURES

EMS offers a comprehensive suite of tools for every aspect of workplace and campus management:

- Meeting and room scheduling
- Event scheduling
- Office hoteling
- Floorplans
